

Health Care Education Week 2018

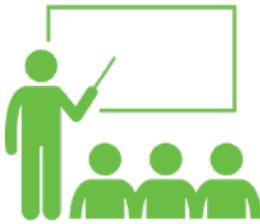

October 22-26, 2018 | Health Care facilities across Rutherford County

Highlights

230 Students & 8 Administrators & Teachers

8 Schools

8 Health Care Tours

Summary

The Rutherford County Chamber of Commerce and Rutherford Works celebrated Health Care Education Week this year by coordinating tours with local health care facilities for middle school and high school students, as well as teachers and school administrators. This week is designed to inform student and educators about careers in health care and give them a chance to see those careers up close. The Health Care Council held their monthly meeting at Stewarts Creek High School, where Council members heard more about how Stewarts Creek program is working to fit the needs of employers in County.

Health Care Week Tours were hosted by: Interfaith Dental Clinic, TCAT Murfreesboro/Smyrna, St. Thomas Rutherford, Boulevard Terrace Nursing & Rehab, TriStar/ HCA, Broadmore Senior Living, and AdamsPlace

Participating schools: Smyrna High, Blackman Middle, Siegel Middle, Rockvale Middle, LaVergne High, Stewarts Creek High, Central Magnet, and Holloway High Schools

HOSTED BY:

Rutherford Works | 3050 Medical Center Pkwy | Murfreesboro, TN 37129
(615)893-6565 | Fax: (615)278-2013 | www.rutherfordworks.org

Employer Feedback

“

“I was extremely impressed with the Stewarts Creek High School, their faculty and in particular, their students. The CNT program appears to be excellent and as a result produces outstanding candidates for building our local health care needs. Kudos to all!!!”

Carol Bragdon - HR Partner
Saint Thomas Health

Educator Feedback

“I think employers visiting and seeing what the CTE students are doing, especially in the Health Science Pathway, gives them a better perspective of the actual material the students are being taught and the skills they are learning to perform. Most healthcare providers do not realize the depth we go into when teaching these courses and it opens their eyes to all the real world experiences the students are getting. I have found that these employers are letting their walls down and becoming more open to work-based learning experiences when they see that we are preparing these students in our fields and how lucky they would be to have them in their facilities.”

Kristi Walker, RN - Health Science/Nursing Education
Stewarts Creek High School
